

About

The American Carp Society was formed in 2002 as a membership based organization responsible for promoting both the sport of Carp Angling and stewardship of the species and its environment throughout the USA. The American Carp Society is known as the nation's foremost authority regarding the species of *Cyprinus Carpio* (COMMON CARP) and has membership throughout the nation.

The American
CARP SOCIETY

Educational

As the USA's definitive resource on the subject The American Carp Society provides educational content for US State Agencies, Specialist Carp Anglers and the general public through Angling events, Social events, Tournaments and social media.

The American Carper

'The American Carper' publication features the very best representation of US Carp Angling with exquisite photography and carefully crafted stories and interviews. Each volume is a collectors item...exclusively produced with stories and images from American Carp Society Members and anglers.

Exclusive Merch

Exclusive merchandise and specialist products designed especially for anglers in the USA.

Events

Social events, tournaments and educational clinics are held in your own state as well as our annual national events to meet members from across the USA.

As a Carp Angler in the USA it is your membership into The American Carp Society that will help to support the awareness of the species and preserve our trophy fish for future generations. **Your voice counts....Let it be heard...Join the Family!**
